1. About the Intensive Japanese Course

Established in 1954, Asia University Intensive Japanese Course is one of the pioneering education programs for international students that are offered by private universities in Japan. For 72 years since its inception, the Intensive Japanese Course has developed and improved its original Japanese teaching method.

It is a one-year intensive course that is designed to allow students to learn the Japanese and English communication skills that are essential for them to receive university education in Japan.

Class A	Class A is for the Japanese learners of Japanese who have a level of Japanese equivalent to passing JLPT N3. Those placed in this class will aim to enroll at university or graduate school, or transfer into university as a third-year student.
Class B	Class B is for the Japanese learners of Japanese who have a level of Japanese equivalent to passing JLPT N4. Those placed into this class will aim to enroll at university.
